- Easy to operate, reliable control and high quality polishing results
- Compact design, large working area with minimal need of total space
- Solid, vibration-free construction ensures high quality polishing results
- Quick and easy to learn training program
- Half portal construction enables fast loading and un-loading of the polished stones even when the machine is operating

BEAR 1200

- Controls, functions and operating itself has been developed with the professional industry operators
- Choose from 5 different polishing figures
- Number of runs for each figure can be chosen individually
- One to Ten different pre-programmed polishing functions can be done
- Upto 10 individual stones can be polished with different programmes at one time

Technical data

Polishing head speed	450 rpm
Polishing head diameter	400 mm
Polishing head segments	5 pieces
Main motor	7.4 kW
Vertical movement of the spindle	0-160 mm
Polishing width standard as option	1200 mm 1500 mm
Polishing length standard as option	3000 mm as required
Electrics	400/230 V +/- 10 %, 50 Hz
Colour	Blue (RAL 5012)
Total need of space	2150x4140x1800 mm

Kasins is a Finnish specialist designer and manufacturer of specific stone processing machinery and also complete automatic production lines.

Over 30 years design and manufacturing experience coupled with flexibility and close contact with the machinery operators have resulted in numerous be-spoke value for money machinery designs.

Kasins utilises the latest high quality base components, cutting edge innovative product designs and latest in-house software technology to produce reliable, accurate, solid, easy to install and operate machines which require minimal maintenance.
